

This exploded perspective view shows the assembly of the device. A cylindrical component (5) is shown with a rectangular block (3) being positioned over it. The block (3) has a top surface with a rectangular feature (11) and a side surface with a series of pins or contacts (17). A separate component (13) is shown with a series of pins or contacts (15) and a series of pins or contacts (19). This component (13) is shown being inserted into the side surface of the block (3). A separate component (7) is shown with a series of pins or contacts (13) and a series of pins or contacts (19). This component (7) is shown being inserted into the side surface of the block (3). A separate component (18) is shown with a series of pins or contacts (13) and a series of pins or contacts (19). This component (18) is shown being inserted into the side surface of the block (3). A separate component (B) is shown with a series of pins or contacts (13) and a series of pins or contacts (19). This component (B) is shown being inserted into the side surface of the block (3).
